Delve into the magnificent scenery sailing along the **Chagres River**, the living connection between two oceans.

The Highlights

Casco Antiguo

Founded in 1519, Panama City became the starting point of important expeditions, like the one, which led to the conquering of the Inca Empire in Peru. Located between the rainforests and the Pacific Ocean, Panama is a vibrant city, which combines the 17th largest sky scrapes line in the world with the colorful warm old colonial city

Gatun Lake

Surrounded by the exuberant rain forest, the Gatun Lake was at some point the largest artificial lake of the world. Fed by the Chagres River this 415 sq. kilometer lake, makes possible the Panama Canal operation.

While navigating the lake, the upper part of chopped and petrified trees can still be seen in the water. The scenery is amazing...the contrast between the water, the rainforest, and the fauna: tropical birds, monkeys, crocodiles, and a vast number of exotic animals. The jungle sounds will be your orchestra while traversing the Gatun Lake

Portobelo

Probably named by Christopher Columbus as “Beautiful Port” in 1502 Portobelo became the main point for the trade of Spaniard ships between Europe and Central and South America, which were laden with the gold of the Incas and Aztecs after these treasures crossed the Isthmus from the Pacific Coast. Because of this, Portobelo became the target of attacks by Pirates like Sir Francis Drake. Portobelo has a rich culture since it is home to the Congo Culture, in the past slaves were traded here. Now-a-days this culture has become a very interesting mixture of two worlds.

Caribbean Sea

The aquamarine shallow waters of the Caribbean Sea will welcome explorers in a colorful journey with marine creatures and coral reef formations. The mixture between white sand and the living sounds of the rainforest is the perfect scenery to play and enjoy with curated flexible activities for everyone: a secluded beach, snorkeling, kayaking, swimming or just relaxing on board

San Lorenzo Fort

Set on a cliff overlooking the river mouth of Chagres, this fortress was constructed between 1598 and 1601 for the main purpose of protecting the Spanish ships which exited the Chagres River in order to sail back to Europe. In 1670 Pirate Joseph Bradley took the fortress with the help of a plan crafted by famous Pirate Henry Morgan. One year later Morgan entered into the river in order to reach the First City of Panama. San Lorenzo's Fortress is a silent witness to how Panama was key for the colonization of Latin America and the magic stories of battles between Spaniards and Pirates.

Monkey's Trail

Immerse into a fantastic tropical rainforest and witness its exuberant wildlife. Howler monkeys will let you know if it is going to start raining, you will listen to their warning miles away! Great place for birdwatching. This exciting trail that will take you from San Lorenzo Fort to Shelter Bay Marina will also deeply connect you to the wonders of nature
